PROJECTS

Twitter Clone (T3 Stack)

- Developed a full-featured Twitter clone using the T3 Stack, focusing on simplicity, modularity, and full-stack type safety.
- Implemented key features including Discord user authentication, infinite scrolling feed, and a follow system, enhancing user interaction and experience.
- Acquired new skills in full-stack development, with a focus on new frameworks such as tRPC, NextAuth.js, Zod, Prisma, and Tailwind CSS.

Sneakers E-Commerce (React)

- Implemented a user-friendly system that allows users to browse and filter through the different products
- Secure payment system that allows users to safely complete transactions

Restaurant Reservation App (Next.js)

- Handled different rendering modes of React components
- Handled loading, error, success, and not found states appropriately
- Handled authentication with middleware and server routes

EDUCATIONAL HISTORY

"JOLT"
Enter Course - Customer Success | Oct 2021
